

# Integrated Video Surveillance Systems

## Harsh Environment Modular System

For Homeland Defense and Military

### Features

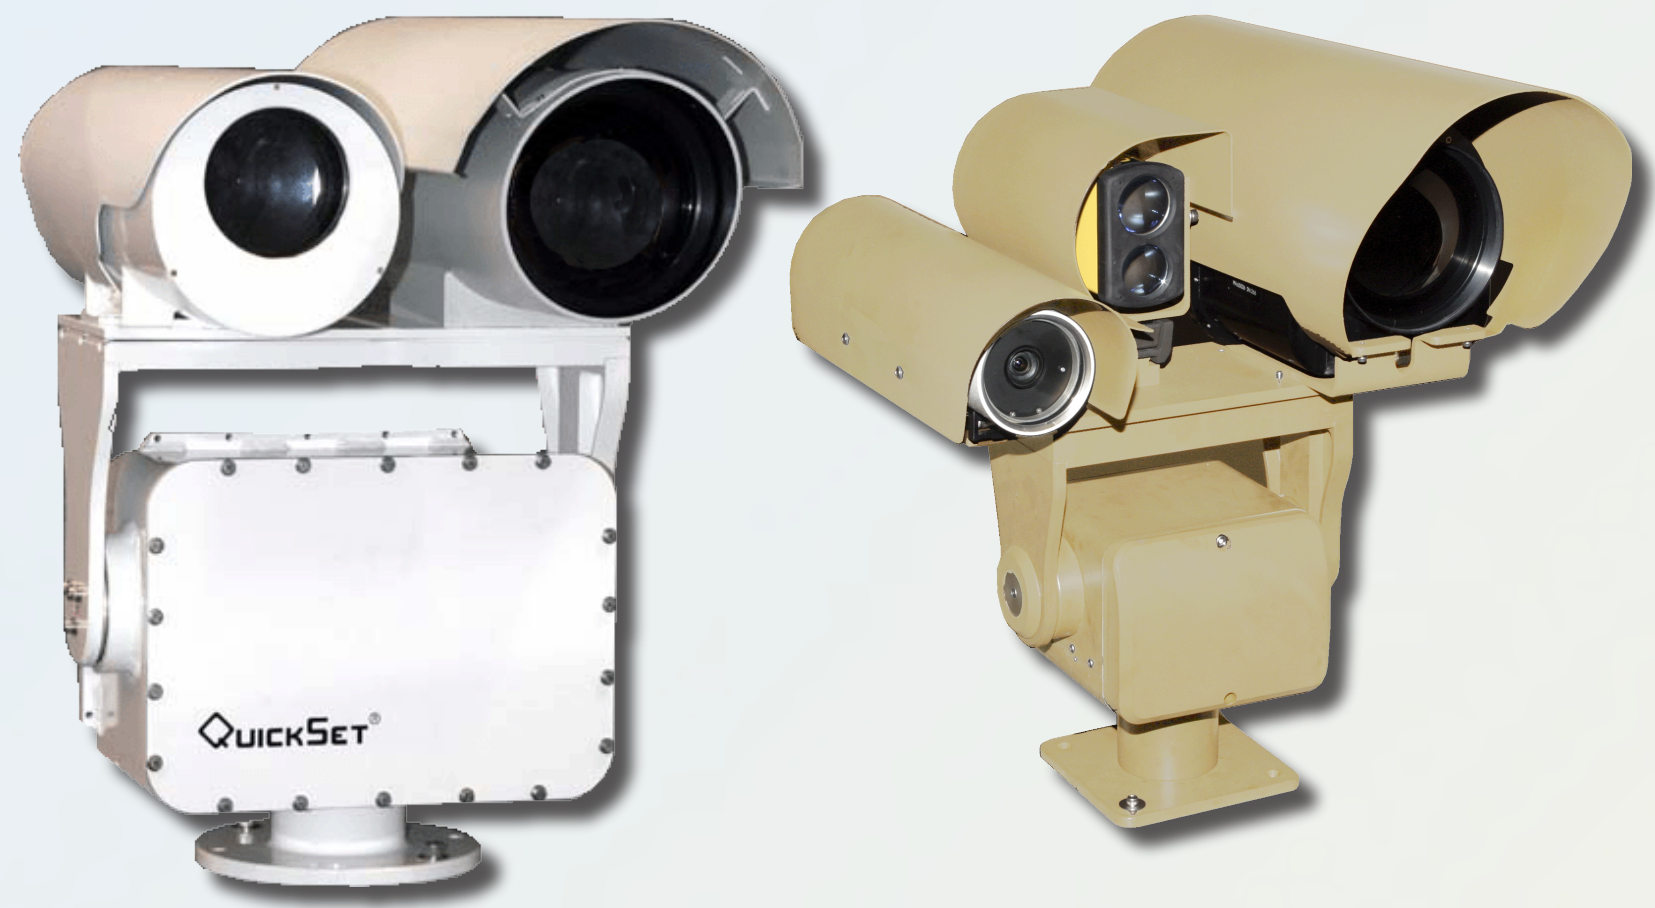

- Modular
- Single serial control line (RS-232/RS-422) or IP-addressable
- Incorporation of many different sensor systems
- Pan (azimuth) rotational speeds 0.005° to 50°/s
- Tilt (elevation) rotational speeds 0.005° to 12°/s
- Accommodates up to 50 ft. lb. load
- Continuous pan rotation

### Environments

- Operating temperature range -30° C to +55° C
- IP-66 compatible

### Components

- QPT-50IC
- Unicom™ controller
- Day camera
- Night camera
- Laser range finder

### Integrated Video Surveillance Systems

When our military marches toward danger as they serve our nation, they use the QPT-50 pan and tilt sensor positioner. It helps them see and prepare their defense. Today's world requires a good defense and situational awareness is a major factor in protecting our troops. QuickSet's modular Integrated Video Surveillance System is there.

QuickSet provides simplified, stable and precise positioning. Also simplified is the communication of sensor data (video range). It can accommodate a sensor array payload of up to a 50 ft. lb. load.

Engineered for the growing demand of targeting, surveillance and security market, the QPT-50 can withstand the harshest of environments. Whether scorching heat or wind blown sand, it thrives, delivering the strategic sensor data used by today's defense and military.
